In addition, we are accepting certified material for our Chicago sale. This sale will be conducted Sunday, August 11. This is the Sunday just prior to the Annual A.N.A. Convention. If you have quality material for either of these sales, just give us a call and ask how you can consign without any seller's commission!

Should you desire additional information on individual lots, or about the auction process itself, just give us a call.

Thank you,

Mail Bidding At Auction

Mail bidding at auction is both fun and easy and only requires few simple steps.

1. Look through the catalog, and determine the lots in which you have interest.
2. Research the market value of these lots by checking price ists and other price guidlines.
3. Fill out your bid sheet, entering your maxmum bid on each lot using your pric esearch and your desire to own the lot (most coins auctioned are one-of-a-kind, or re of special quality not formally found).

WHEN BIDDING BY MAIL, YOU FREQUENTLY PURCHASE AT LESS THAN YOUR MAXIMUM BID. Here is how a mail bid is recorded by our auctioneer:

Bids are recorded as they are received. Preference is given to the first bid receiv in case of a tie.

On the floor of the auction, bidding is opened at 5 to 10% above the second highes mail bid. This bid is submitted by our company acting on your behalf as the highes mail bidder. If the auctioneer recognizes no other bids from the floor, you are awarded the lot at the opening bid. If bidding proceeds from the floor, the compan acting as your agent, registers bids in 5 to 10% increments over the previous bid. This process is continued until you are awarded the lot, or until the next bid is high or equal to your maxmum bid.

An example of this procedure is set forth under these conditions:

On lot 25, you submit a bid of $1,000, and the second highest mail bid is at $500. In this case, bidding on the floor starts at $550, and is bid by our company on your behalf. If no other bids do come from the floor, we bid for you in 5-20% increments, set by the auctioneer, until we reach your maxmum bid of $1,000. If bidding has passed or equaled your maxmum, we take no other action, and the bidding continu on the floor until the final bidder has been recognized by the auctioneer.

CompuBid™ gives you more "on-the-scene" bidding clout than you ever had before.

CompuBid™ is a people-to-people innovation that is, by far, the most advanced and helpful method of mail bidding available in the rare coin marketplace. No other auction company has anything that even compares with its simple sophistication and direct benefits to you.

It increases your chances of success.

CompuBid™ increases your chances of success over our standard mail bidding system and other conventional mail bidding systems two ways: it increases your chances of bidding on more coins; it increases your chances of buying more of the coins you want.

It puts you where the action is.

The action is at the auction. And CompuBid™ puts you there. It gives you almost all the advantages of the people attending the auction. In fact, CompuBid™ gives you so much flexibility, it's as if you were attending the auction in person.

It maximizes your bidding dollars.

CompuBid™ enables you to bid on as many coins as you like, yet limit your total purchases to a specific amount. For example, you could bid on $25,000 worth of coins, yet limit your total purchases to $5,000. In this example, although you have the opportunity to bid on several coins that interest you, it is still possible to stay within your buying limits. This way, knowing that you have limited your bidding dollars to a specific amount, you can bid with more confidence and flexibility than ever before.

It evens the odds for you.

CompuBid™ equalizes your chances of bidding successfully against the bidders at the auction on the coins you want to buy. For example, assume you want to buy either a Seated dime for $500 or a Seated quarter for $950. You would bid on both coins in those amounts and place your bidding limit at $950. If you bought the Seated dime for $500, your bidding limit would be reduced to $450 ($950-$500 = $450), which would be your new bid on the Seated quarter. However, if you did not buy the dime, then your bid of $950 on the quarter would be accepted.

In another example, suppose you wanted to buy one gem proof Mercury dime $500. Assume there are three similar quality proof dimes in the sale, all with the same date and grade. You would bid $500 on all three and limit your purchase to $500. You would buy the first one to sell for $500 (or less) and the other bids would be canceled.

It's a tested and proven success.

CompuBid™ has proven to be the most effective and useful auction mail bidding technique available. No other auction company has the advancements in mail bidding technology and documentation necessary to offer a service as important and historically significant as CompuBid™. In fact, CompuBid™ is so precise that Heritage Numismatic Auctions, Inc., unconditionally guarantees that you, the bidder, will not be liable for any purchase over your specified limit.

The premium and/or the fee are payable by the buyer as part of the total purchase price.

4. All bids are to be per lot as numbered in this catalog, and no lots will be broken. The Auctioneer reserves the right to group two or more lots together and to withdraw, prior to a call for bids, any lot or lots from the sale. Bids will be accepted in whole dollar amounts only.

It is the responsibility of the buyer to provide adequate insurance coverage for the coins once they are in his possession. Risk of loss shall be borne by the buyer following shipment of the coins.

10. The Auctioneer reserves the right to refuse to honor any bid or to limit the amount of any bid which, in his opinion, is not submitted in "Good Faith," or as the case dictates, is not supported by satisfactory credit references, as the Auctioneer in its sole discretion shall determine. A bid is not considered made in "Good Faith" when it is made by an insolvent or irresponsible person or a person under the age of eighteen, as the Auctioneer, in its sole discretion, shall determine. In the event a successful bidder fails to pay all amounts due, the Auctioneer reserves the right to resell the merchandise and the buyer agrees to pay for the reasonable cost of such a sale, including a 10% seller's commission, and also to pay any difference between the resale price and the price of his previously successful bid.

11. **The Auctioneer shall have a lien against the merchandise purchased by the buyer, and any other property of the buyer then held by the Auctioneer to secure payment of the auction invoice(s) and any other amounts due the Auctioneer from the buyer, with respect to which the Auctioneer shall have all the rights of a secured creditor under Article 9 of the Texas Uniform Commercial Code.** In addition, with respect to payment of the auction invoice(s), the buyer waives any and all rights of offset he might otherwise have against the Auctioneer and the consignor of the merchandise included on the invoice.

12. **The Auctioneer shall have the right to offset the unpaid amount of any auction invoice(s) against any amount then due to the buyer by the Auctioneer or affiliates of the Auctioneer.**

13. No buy or unlimited bids will be accepted. Mail bidders will be awarded lots at a 5-10% advance over the second highest bid. No additional commission (except for the buyer's premium) is charged for executing mail, phone, or FAX bids.

14. The Auctioneer cannot be responsible for your errors in bidding, so check your bids carefully. When identical mail or FAX bids are submitted, preference is given to the first received. If a mail bidder and a floor bidder have called identical bids, the decision of the Auctioneer and declaration of the winning bidder is final. The Auctioneer is not responsible for executing mail bids received on or after the day the first lot is sold. To insure the greatest accuracy, your bids should be entered on the standard bid sheet form and be received at the Auctioneer's place of business at least two business days in advance of the sale date.

15. Estimates will be given upon written request. It is recommended that bidders approach or exceed the estimates in order to increase the chances of bidding successfully.

16. By bidding at this sale the bidder warrants that he is of legal age, has the capacity to make the bid presented, and that the transaction is not for commercial purposes.

17. **Notice as to Warranties.** Auctioneer is selling only such right or title to the coins being sold as Auctioneer may have by virtue of consignment agreements on the date of sale and disclaims any warranty of title to the coins. Any description of the coins contained in this catalog is for the sole purpose of identifying the coins, and no description of coins has been made part of the basis of the bargain or has created an express warranty that the goods would conform to any description made by the Auctioneer. Auctioneer disclaims any warranty of merchantability or fitness for any particular purpose; the coins are sold "As Is" without any express or implied warranty.

   Coins sold referencing a third-party grading service may have various warranties and the bidder is referred to those services for details. American Numismatic Association Certification Service (ANACS), 818 N. Cascade Ave., Colorado Springs, CO 80903-3279; Hallmark Grading Service, Inc., P.O. Box 2879, Woburn MA 01888;

Numismatic Certification Institute, Inc., Heritage Plaza, Highland Park Village, Dallas, Texas 75205-2788; Numismatic Guaranty Corporation (NGC), P. O. Box 1776, Parsippany, NJ 07054; Professional Coin Grading Service (PCGS), 4533 MacArthur, Suite D, Newport Beach, CA 92660.

AS THE COINS ARE SOLD BY REFERENCE TO THIRD PARTY SERVICE'S CRITERIA AND DETERMINATION, ALL SALES ARE FINAL AND THERE IS NOT A RIGHT OF RETURN FOR ANY REASON EXCEPT AUTHENTICITY. ALL COINS ARE GUARANTEED AS GENUINE BUT ARE NOT GUARANTEED AS TO GRADE.

Auctioneer disclaims all liability for damages, consequential or otherwise, arising out of or in connection with the sale of any property by Auctioneer to bidder.

No third-party may rely on any benefit of these Terms and Conditions and any rights, if any, established hereunder are personal to the bidder and may not be assigned.

Any statement made by the Auctioneer is a statement of opinion and does not constitute a warranty or representation.

An employee of Auctioneer may not alter the Terms of Sale, and, unless signed by a principal of Auctioneer, any alteration is null and void.

This sale is not on approval.

18. **Important Notice About Grading.** Grading is an art, not a science, and therefore the opinion of others (including trained experts), and the same expert may not grade the same coin with the same grade at two different times. There is no guarantee or warranty implied or expressed that the grading standards utilized by the Auctioneer will meet the standards of ANACS, Hallmark, INS, NCI, NGC, PCGS, or any other grading service at any time in the future. Due to changing grading standards over time and to possible mishandling of coins by subsequent owners, the Auctioneer reserves the right to grade coins differently than shown on certificates from any grading service that accompany the coins. For the same reason as stated above, the Auctioneer reserves the right to grade coins differently than the grades shown in the catalog should such coins be reconsigned to any future auction.

Although consensus grading is employed by grading services, it should be noted as aforesaid that grading is not an exact science. In fact, it is entirely possible that if a coin was broken out of a plastic holder and was resubmitted to another grading service or even the same service, the coin could come back a different grade.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets.

The degree of liquidity for certified coins will vary according to general market conditions and the particular coin involved. For some coins there may be no active market at all at certain points in time.

19. Some of the coins in this sale may have been graded by the Numismatic Certification Institute (NCI, an affiliate of the Auctioneer).

Important Note -- The grading standards used by NCI generally result in a coin receiving a higher grade than the "consensus" grade that would be assigned by most dealers. The grading standards reflected in the Coin Dealer Newsletter (CDN) are stricter than NCI's and, accordingly, CDN prices in general significantly overstate the wholesale value of NCI graded coins. The Certified Coin Dealer Newsletter (CCDn), P.O. Box 11099, Torrance, CA 90510 is a better wholesale reference for NCI certified coins than the CDN.

20. Any dispute after the settlement date, June 27, 1991, is strictly between the bidder and consignor without involvement or responsibility of the Auctioneer.

The Auctioneer or affiliates of the Auctioneer, may consign items to be sold in this auction sale and may bid on those items or any others in the sale. The Auctioneer or affiliates expressly reserve the right on its lots to modify its bids at any time based upon data made known to the Auctioneer or its affiliates. In the event of a typographical error or attribution error, the Auction may, at the Auctioneer's sole discretion, correct the error orally at the sale, or, if discovered at a later date, to refund the buyer's money without further obligation. Under no circumstances shall the obligation of the Auctioneer to any bidder be in excess of the buyer's premium for any lot in dispute. If any disputes arise regarding payment, authenticity, or grading between the bidder and Auctioneer, the Auctioneer, at its sole discretion, may submit the disputed matter to binding arbitration in accordance with the rules of the Professional Numismatists Guild, to which the bidder, by placing a bid and thereby accepting these Terms and Conditions of Sale, agrees to be bound.

21. In consideration of participation in the auction and the placing of a bid, a bidder expressly releases Auctioneer, its affiliates, the Consignor, or Owner of the Lot from any and all claim, cause of action, chose of action, whether at law or equity or any arbitration or mediation rights existing under the rules of any professional society or affilation based upon the assigned grade or a derivative theory, breach of warranty express or implied, representation or other matter set forth within these Terms and Conditions of Sale or otherwise, except as specifically declared herein; e.g., authenticity, typographical error, etc., and as to those matters, the rights and privileges conferred therein are strictly construed and exclusive remedy and shall be waived by Purchasers by noncompliance to its express terms.

HALF-CENTS

5001 PCGS 1855 MS 63 Red and Brown. Significant portions of the original red remain with darker areas in the center.

5002 PCGS 1855 MS 63 Red. Well struck with nice, slightly mellowed red color.

LARGE CENTS

5003 PCGS 1806 AU 50. Sharply struck with light color and clean surfaces except for a nick on the nose.

5004 PCGS 1850 MS 64 Red and Brown. Sharply struck centers with glossy underlying luster.

5005 PCGS 1852 MS 65 Red and Brown. Pristine surfaces with considerable amounts of original red luster around the devices on the obverse and over the entire reverse.

5006 PCGS 1856 MS 64 Brown. Upright 5. Smooth, glossy surfaces with considerable underlying red luster.

FLYING EAGLE CENTS

5007 ANACS 1857 MS 62. Glossy brown luster with a thin band of reddish-orange around the edges. Weak on the reverse as usual.

5008 PCGS **1856 PR 64.** The surfaces are clean and virtually unmarked except for a couple of small lint marks in the lower obverse field. Each side has a light brown patina with a faint outline of pinkish-rose luster around the devices. A most attractive example of this rare first year of issue and the key date to the series. One of only 30 coins to have been so graded by PCGS.

INDIAN CENTS

5009 PCGS 1859 MS 64. Bright lustrous surfaces that show little variation in color, just a pleasing light red-orange. Sharply struck.

5010 PCGS 1859 MS 64. Fully struck with golden-brown toning and a few streaks of deeper reddish color down the obverse. A sharp example of this one year type coin.

5011 PCGS 1863 MS 64. Clean and sharply struck with light color.

5012 PCGS 1867 MS 64 Red and Brown. Bright unmellowed color on the obverse, somewhat darker on the reverse.

5013 PCGS 1881 MS 65 Red. Fully struck with superb mint luster.

5014 NGC 1898 MS 65 Red and Brown. Sharply struck with excellent luster.

5015 PCGS 1907 MS 65 Red. Sharply struck with deep, blazing red color.

5016 PCGS 1909 MS 65 Red. Clean surfaces with attractive red luster.

5017 PCGS 1909-S MS 64 Red. Superb color on this scarce key date issue.

5018 PCGS 1866 PR 63 Red and Brown. A nice looking coin for the grade.

5019 NGC 1880 PR 65 Red. Deeply mirrored. A lovely coin.

LINCOLN CENTS

5020 PCGS 1919-D MS 64 Red. A scarce early date that is much more difficult to find with red color than one might imagine. Fully struck.

5021 NGC **1922 No D MS 63 Red and Brown.** Created by an excessively worn die that eventually became so weak that the mintmark does not show. These coins can be located occasionally in lower, circulated grades but are excessively rare in mint state. To give some indication of this issue's rarity, in all conditions of uncirculated both major grading services have only certified 31 coins. NGC has only graded one other MS-63, with three finer (all 64 coins). This piece has a considerable amount of original red luster on both sides with an occasional spot of brown color. A rarely encountered, key issue in the Lincoln series.

5022 PCGS 1928-D MS 65 Red. Fully struck with bright, even red luster and carbonless surfaces. One of only 19 coins to have been so graded of this scarce date, none are finer.

5023 NGC Five 1943-S MS 67. Superb coins with bright, dazzling zinc colored flash. An investor's special that is sure to be of interest to many bidders. (Total, 5 coins)

5024 PCGS 1940 PR 65 Red.

TWO-CENT PIECES

5025 PCGS **1864 Small Motto MS 64 Red and Brown.** Sharply struck, the carbon-free features show a mellowed brown color and are outlined by original red luster. An attractive example of this scarce type coin of which only 44 have been so graded.

5026 PCGS 1869 MS 64 Red. Lovely orange-red color with a few light stray marks and virtually no carbon.

5027 PCGS 1866 PR 64 Red and Brown. Deeply mirrored with a light iridescence in the fields.

5028 PCGS 1868 PR 64 Red. Bright mint red color with nice reflective fields.

5029 PCGS 1871 PR 64 Red and Brown. Bright and flashy, there is a great deal of red and very little brown on this coin.

Excellent luster also and just a lovely type coin. Very rare as a date in this condition with this being the only coin of this date to have been so graded by either of the major grading services.

5052 PCGS 1883 MS 63. A clean original coin with a number of die cracks and planchet flakes that prevent a higher grade.

luster that shimmers over the surfaces just beneath the layer of patina. An excellent type coin with no visible distractions.

SEATED HALF DIMES

5077 PCGS. 1837 No Stars MS 63. Fully struck with speckled blue, violet, and gray toning. A popular and short-lived type coin.

5078 PCGS. 1838 No Drapery MS 63. Fully struck with medium red and olive patina. A necessary type coin that was struck in only three years.

5079 PCGS. **1840 No Drapery MS 64.** Struck to the nth degree with pinpoint detailing on both sides, the fields have a bright, shimmering glow and the surfaces overall are covered with an even golden-lilac patina.

5080 PCGS. **1840 No Drapery MS 64.** Fully struck with muted lustrous surfaces that are covered with a light lavender toning that deepens to a golden-brown closer to the edges.

5081 PCGS. 1850 MS 63. Fully struck and light in color with an occasional patch of golden-brown.

5082 PCGS. **1855 Arrows MS 64.** One of the most attractively toned coins we have seen in some time. The surfaces have slathers of thick frosty mint luster and there are no apparent abrasions on either side. A scarce and desirable type coin.

5083 PCGS. 1856 MS 63. Sharply struck except on the uppermost stars with good luster and nice toning.

5084 PCGS. 1856 MS 63. An affordable type coin with good luster and color, but not very well struck.

5085 NGC. 1856 MS 63. Deep lavender and blue toning. A clean coin but not quite as well brought up as needed for a higher grade.

5086 PCGS. 1857 MS 64. Fully struck with bright, coruscating luster. Almost untoned with the vaguest hint of light color on each side. An attractive Stars half dime.

5087 NGC. 1869 MS 64. A clean, well struck example of this scarcer early half dime. A low population coin with only 10 coins having been so graded by NGC and by PCGS.

5088 PCGS. **1872-S MS 65.** An original example of this late date half dime that is completely struck up in all areas and shows scattered speckles of golden-brown, russet, and blue toning while most of the surfaces remain untoned. A lovely coin and one of 50 gems to have been so graded by PCGS.

EARLY DIMES

5089 PCGS. **1833 MS 64.** JR-5. R.1. Although a common variety of the year, this is still undoubtedly one of the finest pieces extant. Sharply struck throughout with good definition on the hair curls. The surfaces have good luster and there is a slight peripheral golden patina.

LIBERTY SEATED DIMES

5090 PCGS. 1838 Large Stars MS 63. Fully struck with excellent luster and dense lilac toning.

5091 PCGS. **1849 MS 65.** Stars dimes are very scarce in the better grades of mint state, especially so in gem condition. There have only been 81 gems graded by PCGS. This is the only one so graded of this date and has remained the only one for more than two years. The strike is complete and the luster strong with a hint of golden toning on each side.

5092 PCGS. 1856 MS 63. Sharply struck with light color and a few small, scattered marks.

5093 PCGS. **1858 MS 66.** An exceptional Stars dime with beautiful rainbow iridescent toning and bright underlying luster. There has only been one other coin graded that can claim to rival this one, and only one is finer according to the PCGS Population Report.

5094 PCGS. **1859 MS 65.** Sharply (but not completely) struck up with attractive blue, golden, and pink toning. One of only eleven coins to have been so graded by PCGS.

5095 PCGS. 1883 MS 62. Dusky gray toning.

5096 NGC. **1888 MS 66.** Deep prooflike fields with bright, watery pools of reflectivity on each side. At first glance the coin appears to be a proof, but there is a softness of detail on the head that is not consistent with doubly struck coins. The devices have excellent luster and are heavily contrasted against the fields. Superb quality. One of only three pieces of this date to have been so graded by NGC.

5097 PCGS. **1891 MS 65.** Original gray toning with deep iridescent flashes of color around the edges. Highly lustrous and fully struck.

5098 PCGS. 1891-S MS 63. Deep golden-olive toning with strong underlying luster.

5099 PCGS. **1860 PR 66.** A spectacular, multi-colored example of this popular first year type coin. This is the first year for the Legend Obverse design and approximately 1,000 proofs were struck, but many (perhaps half) remained unsold at year's end and were melted. Only six proofs have attained such a lofty grade, and of those five other pieces few could match this coin for originality and overall eye appeal.

5100 PCGS. 1868 PR 64. Dazzling mirrors with cameoed devices. Lightly toned on the obverse with a brilliant reverse.

5101 NGC. 1872 PR 64. Mottled blue and golden-red toning.

5102 PCGS. 1875 PR 62. Light golden-rose centers with deeper blue toning at the edges.

5108 PCGS. 1912 MS 64. Fully struck with fine, pinpoint striking detail.

5109 NGC. 1912-D MS 62. Toned.

5110 PCGS. **1916-S MS 65.** A lovely gem type coin that is blanketed by speckled golden-brown, blue, and red toning on the obverse. The reverse is much more subdued with a light golden toning that shades to a deeper russet at the edge. Fully struck.

5111 NGC. **1899 PR 65.** A very attractive gem proof type coin with excellent reflectivity in the fields and covered with a deep blue, red, and yellow iridescent toning on the obverse.

MERCURY DIMES

5114 Hallmark 1916 MS 65 Full Rounded Bands. Violet-gray toning. Popular first year of issue.

5115 PCGS 1916 MS 66 Full Bands. Unmarked surfaces with deep iridescent toning.

5116 PCGS 1918-S MS 63. Attractive original toning.

5117 PCGS 1921 EF 40. An untoned circulated example of this scarce issue.

5118 NGC 1926 MS 66 Full Bands. A superb Mercury dime that has thick mint frost on both sides--perhaps a bit more obvious on the obverse with its clear center and light golden and rose toning around the edge. The reverse is toned a deep russet with olive undertones.

5119 PCGS 1930-S MS 64. Brilliant with superb luster.

5120 PCGS 1930-S MS 65. Toned on the obverse with a brilliant reverse and considerable separation in the bands.

5121 PCGS 1934-D Mercury dime MS 64, toned; and a 1934 Washington quarter MS 64, toned. (Total: 2 coins)

5122 ANACS 1943-D MS 66 Full Split Bands. Deep mottled toning on the obverse, brilliant reverse.

5123 PCGS 1940 PR 65. Untoned with dazzling proof mirrors.

5124 PCGS 1940 PR 66. An original coin with a thin, hazy gray film over both sides. Untampered surfaces.

5125 PCGS 1942 PR 65. Brilliant with slight contrast between the fields and devices.

ROOSEVELT DIMES

5126 NGC 1946-D MS 67. A virtually perfect coin with attractive Mint set toning.

5127 NGC 1946-S MS 66. Bright obverse color with superb underlying mint frost.

5128 PCGS 1949 MS 65. Toned.

5129 PCGS 1949-D MS 65. Lightly toned semi-key date issue.

5130 PCGS 1949-D MS 66. Lightly toned.

5131 PCGS 1949-S MS 65. Obverse toning.

5132 PCGS 1949-S MS 66. Toned.

EARLY QUARTERS

5133 PCGS 1806/5 EF 45. Sharply struck in the centers with a softening of peripheral details. Toned a variegated violet and golden with reddish undertones.

5134 PCGS 1838 MS 61. Clean surfaces with an even steely-blue tone across the obverse. The reverse is much lighter in color and has more zip to the luster.

LIBERTY SEATED QUARTERS

5135 NGC **1853 Arrows and Rays MS 63.** Sharply struck with bright olive, blue, and red toning. A scarce and highly sought after one-year type coin of which there have only been 19 pieces that have been graded MS 63.

5136 PCGS **1862 MS 65.** A very scarce Civil War issue that is difficult to locate in mint condition and virtually impossible as a gem. There have only been four other gems graded of this date and it is difficult to imagine any of those pieces having better eye appeal than this coin. The surfaces have thick mint frost and a light layer of pale iridescent color with deeper flecks of peripheral toning.

5137 PCGS **1863 MS 64.** Fully struck with deep violet toning around the devices. Excellent luster on this scarce issue with only 12 pieces having been so graded by PCGS.

5138 PCGS **1863 MS 65.** As the Civil War ground on year after year more and more coins were hoarded, melted, and exported. As a result coins from these years are very difficult to locate in the better grades of uncirculated. Only five other 1863 quarters have been graded MS-65 by PCGS. This lovely coin is untoned and fully struck with smooth, unblemished surfaces.

5139 PCGS **1865 PR 64.** Proof No Motto quarters are an underrated and overlooked series of 19th century coins with very few available in better grades. There have only been 13 Proof-64 coins graded of this date by PCGS. This piece is highly reflective with attractive toning on each side and no apparent surface blemishes.

5140 PCGS 1891 PR 63. Bright iridescent toning.

BARBER QUARTERS

5141 PCGS 1896 MS 63. Fully struck with a toned obverse.

5145 NGC 1914 MS 63. Russet toning.

5146 PCGS **1914 MS 65.** Thick, frosted mint luster with smooth, unmarked surfaces that are covered by an olive-gray toning that shows reddish undertones. Only 20 gems have been graded of this date by PCGS and only one is finer.

5147 PCGS 1914-D MS 63. Light in color with somewhat dull luster.

5148 PCGS 1915-D MS 63. Sharply struck with deep, even toning.

5154 NGC 1929 MS 63. Good head detail with streaks and spots of deep russet toning.

5158 PCGS 1932-S MS 63. Bright shimmering luster with barely any toning.

5164 PCGS 1940 PR 65. Highly reflective with a light haze in the fields

EARLY HALF DOLLARS

5165 ANACS 1806 EF 40. A pleasing coin for the grade with medium gray colored patina. Well struck with a few tiny, scattered surface marks.

5166 PCGS **1832 MS 64.** Very sharply struck with full radials to the stars. The surfaces appear defect-free (but there must be a flaw somewhere as indicated by the grade) and they are covered with lively blue, olive, and golden toning with strong luster beneath. One of 34 coins to have been so graded by PCGS according to the May Population Report.

5167 PCGS 1835 AU 58. Deep gray, blue, and golden-rose toning on each side with good underlying luster

5168 PCGS 1836 Lettered Edge AU 58. Light tonal qualities with excellent luster

5169 PCGS **1838 Reeded Edge MS 64.** As is often the case on Reeded Edge halves the centers have pinpoint detailing while the edges lack highpoint definition. The surfaces have a smooth, unblemished satiny luster that is toned a medium density blue-gray with faint overtones of reddish-golden. One of only 14 pieces to have been so graded by PCGS.

LIBERTY SEATED HALF DOLLARS

5170 PCGS 1880 MS 62. Prooflike and brilliant with light peripheral toning.

5171 PCGS **1866 PR 64.** Deeply mirrored with attractive blue and golden-red toning. First year of the new With Motto design.

5172 PCGS **1874 Arrows PR 64.** The Arrows issues of the 1850s and 1870s are significant design types that were produced in response to a true need for either lighter or heavier silver coins, rather than some whimsical desire for change by mint officials based on artistic merit. This coin has deep proof mirrors and at first seems too dark to grade Proof-64. But when held beneath a light myriad colors sparkle beneath the darker overlay of patina. The centers of each side are light, almost to the point of brilliance. A scarce two year type of which only 40 Proof-64 coins have been certified.

5173 PCGS **1886 PR 64.** For the grade this coin has about as much eye appeal as can expected for any Seated half. The obverse has a deep olive tone with accents of pale golden, while the reverse has a lively rose tone. Superb deep watery fields.

5174 NGC 1890 PR 63. The fields show a few discreet hairlines beneath a darker olive-gray toning

BARBER HALF DOLLARS

5175 NGC **1892-O MS 64.** Untoned and very sharply struck with frosted mint luster.

5176 NGC **1892-S MS 65.** At the pinnacle of preservation for this scarce early half dollar. Both sides have an evenly matched, hazy patina with faint traces of underlying iridescent toning. The luster is thick and frosted and cannot be subdued by the toning. One of only three coins to have been so graded by NGC and exceeded in grade by only one piece.

5177 PCGS 1904 MS 64. Prooflike with a few light streaks of toning. Nice coin that at first glance resembles a proof.

5178 PCGS 1908-O MS 63. Bright iridescent toning.

5179 PCGS **1908-O MS 66.** Medium golden-brown toning over both sides with accents of light blue around the edges. Superb luster. One of the few MS-66 Barber halves one will ever likely see from this rare mint.

5180 PCGS 1912-D MS 63. Lustrous with a toned obverse.

5181 PCGS 1913-D MS 64. Light in color with good luster.

5182 ANACS 1892 PR 63. Brilliant with a stark cameo contrast. A sharp upper-end coin for the grade.

WALKING LIBERTY HALF DOLLARS

5183 NGC **1917-D Obverse MS 65.** The mintmark was placed on the obverse of the Walking Liberty half for only two years (1916-17), so the type collector has a selection limited to only four issues. In fully struck gem condition the 1917-D Obverse can be quite a challenge. NGC has only graded three coins MS-65 of this issue. This piece is fully struck and is toned deep blue with spots of reddish-golden color on either side.

5184 PCGS 1936 MS 66, attractive speckled purple toning; and a 1939 MS 66, lightly toned. (Total: 2 coins)

5185 PCGS 1936-S MS 65. Fully struck.

5186 PCGS 1937 MS 65, superb luster; 1939 MS 65; 1939-D MS 65; and a 1945-S MS 65. All four coins are toned, some light, others more deeply. An attractive grouping. (Total: 4 coins)

5187 PCGS 1938 MS 65. Fully struck with light, even toning Scarcer overlooked issue.

5188 PCGS 1938-D MS 65. Lightly toned with full, pinpoint striking detail. An original example of this scarce, low mintage issue.

5189 PCGS 1939 MS 66. Pale translucent rainbow iridescence around the edges. A very attractive type coin.

5190 NGC 1939 MS 67. The devices and fields are free from any discernable post-striking impairments. Pale iridescent color around the edges. One of only ten pieces to have been so graded by NGC.

5191 NGC 1940 MS 67. An outstanding Walker with bright, shimmering luster and no detracting marks.

5192 PCGS 1941 MS 66. Even champagne golden toning.

5193 PCGS 1941 MS 66. Light streaks of golden-rose toning on the obverse with strong underlying mint frost.

5194 PCGS 1941 MS 66; 1942 MS 66; and a 1943 MS 66. All are either light in color or completely brilliant. A nice trio of Philadelphia Walkers. (Total: 3 coins)

5195 PCGS 1941 MS 66. Brilliant, satiny luster that seems to glow as it is rotated beneath a light.

5196 PCGS 1941 MS 67. Immaculate fields and superb luster.

5197 NGC 1941 MS 67 Deep iridescent rose, apple green, and russet toning. A beautiful type coin with bright underlying luster and apparently flawless surfaces.

5198 PCGS 1941-D MS 66. Thick, silky lustrous surfaces with a touch of light golden toning on each side, deepening at the edges.

5199 PCGS 1941-D MS 66. Vibrant satiny luster with an arc of light iridescence in the right obverse field.

5200 PCGS 1941-S MS 64. Sharply struck with good hand and head detail. Brilliant.

5201 NGC 1941-S MS 64. A flashy example of this rare date that has strong prooflike fields and a sharp strike. Unusual.

5202 PCGS 1942 MS 66. Delicately toned with exquisite underlying luster.

5203 PCGS 1942 MS 66. Blazing luster with a couple of small spots in the right obverse field.

5204 PCGS 1942-D MS 65. Brilliant.

5205 PCGS 1942-S MS 64. Full skirt lines with sharp hand and head detail.

5206 PCGS 1943 MS 66. White frosty mint luster. Immaculate fields.

5207 PCGS 1943 MS 66. Bright scintillating luster

5208 NGC 1943 MS 66. Brilliant and fully struck with plenty of flash.

5209 NGC 1943 MS 67. An incredible type coin with nearly flawless surfaces.

5210 PCGS 1943-D MS 66. Fully struck with bright, milky white luster.

5211 PCGS **1943-D MS 67.** Fully struck with bright, sparkling surfaces. Nearly perfect. One of only 17 pieces to have been so graded.

5212 NGC **1943-D MS 67.** The fields have a bright, semi-prooflike gleam and the devices are free from any noticeable contact marks. An immaculately preserved coin and one of only 11 pieces to have been so graded by NGC.

5213 PCGS 1943-S MS 64. Brilliant and very well struck.

5214 PCGS 1944-D MS 66. Thick mint frost with lovely toning on the obverse.

5225 NGC 1942 PR 65. Bright proof mirrors with a spot of russet color on each side.

FRANKLIN HALF DOLLARS

5226 PCGS 1948 MS 65. Beautiful pastel toning.

5227 PCGS 1949-S MS 64. Brilliant and frosty. An affordable example of this key date issue.

5228 PCGS 1950-D MS 64. Brilliant.

5229 NGC 1951-S MS 66. Light Mint set toning with excellent luster.

5230 NGC 1956 Cameo PR 67. A spectacular white on black cameo. Flawless.

EARLY DOLLARS

5231 PCGS 1798 Large Eagle VF 25. Although the PCGS holder says this is a Small Eagle it is actually the much commoner Large Heraldic Eagle type. The coin has original multi-colored toning with several curious darker spots and streaks on the obverse.

5232 PCGS 1799 8 VF 30. B-1, R.5. Deep, original toning with numerous scattered abrasions.

LIBERTY SEATED DOLLARS

5233 ANACS 1843 AU 50. Well struck with light golden-brown and blue toning on each side and considerable prooflike reflectiveness remaining in the fields.

fields but nothing large to distract the viewer's attention. This is the only MS-62 that NGC has graded while PCGS has certified five.

5235 PCGS **1857 MS 63.** A very scarce Seated dollar with an original mintage of 94,000. Of that number very few have survived with estimates for 20-60 pieces extant in all conditions of mint state. This piece is brilliant and shows good mint luster. As usual the head and stars show some softness of strike but the claws are very well detailed. There has only been one other MS-63 coin graded by PCGS with four others graded higher (three MS-64 and a single gem).

5236 PCGS 1860-O MS 60. Brilliant and highly lustrous with the usual number of widely scattered bagmarks.

TRADE DOLLARS

5237 PCGS 1875-S MS 62. Frosted mint luster and toned on the obverse.

5238 ANACS 1877-S MS 61. Very sharply struck with strong semi-prooflike fields. Lightly toned.

5239 PCGS **1874 PR 64.** An originally toned coin with deeply reflective proof mirrors with blue and golden-brown toning and a rather large area of brilliance on each side. Strong eye appeal with few technical problems.

MORGAN DOLLARS

5240 NGC 1878 7 8 TF MS 64. Deep blue, red, and purple toning.

5241 PCGS 1878-CC MS 65. Blazing mint luster.

5242 NGC 1879 MS 64, 1889 MS 64, and an 1890 MS 64. All are toned. (Total: 3 coins)

5243 PCGS **1879-CC MS 63.** Perfect Dies. Anyone needing this date should take a close look at this coin. 1879-CC dollars are usually seen with numerous and often heavy abrasions, especially on the cheek. This coin has a couple of minor abrasions and luster grazes on the cheek but it is surprisingly clean on both the devices and in the fields. The reverse grades a full two points higher. There is a minor striking deficiency over the ear and the luster is superb as is the case on most Carson City products. One of only 221 pieces to have been so graded by PCGS, and undoubtedly one of the finest coins in this grade.

5244 PCGS **1879-CC MS 64.** Capped Die. This is one of the cleanest 1879-CC dollars we can remember seeing. The cheek and fields are virtually unmarked, showing only a few minor luster grazes that do not detract from the coin's overall beauty, primarily because the luster is so thick and frosted that it would take quite a bit to cut through the luster and into the metal. Light silvery-gray color. The only detraction on this lovely coin is the slight softness of strike in the centers. One of only 42 pieces to have been so graded by PCGS.

5245 PCGS 1879-S MS 65, untoned with flashy luster; 1880-S MS 65, toned obverse; and an 1881-S MS 65, prooflike obverse. (Total: 3 coins)

5246 PCGS 1879-S MS 65, rainbow toning; NGC 1880-S MS 65, partially toned obverse; NGC 1881-S MS 65, with an arc of rainbow toning on each side; 1887 MS 65; and an 1899-O MS 65, toned. A nice group of premium toned dollars. (Total: 5 coins)

5247 PCGS 1879-S MS 67. A magnificent Morgan dollar and a perfect coin to use for a type set. An added bonus are the strong semi-prooflike fields that have just a touch of cartwheel in them that prevents the piece from being termed Prooflike.

5248 PCGS 1880 MS 64. Untoned.

5249 NGC 1880-S MS 65 Prooflike. Brilliant.

5250 PCGS 1880-S MS 66. Bright frosted lustrous surfaces with a prooflike reverse. Sharp looking coin.

5251 PCGS 1880-S MS 66. Superb frosty mint luster. Semi-prooflike on the obverse with a band of rainbow toning on the reverse.

5252 NGC 1880-S MS 66. Flashy semi-prooflike fields with a thin arc of rainbow color on the obverse rim.

5253 PCGS 1881 MS 64. Full strike.

5254 PCGS 1881-CC MS 66. Thick, frosted lustrous surfaces with just the lightest overlay of gray patina.

5255 PCGS 1881-S MS 65 Prooflike. Brilliant with some cameo contrast.

5256 PCGS 1882 MS 65. Exceptionally clean features.

5257 PCGS 1882-O MS 64. Fully struck and semi-prooflike.

5258 PCGS 1883 MS 66. Fully struck and clean as a whistle with just the vaguest hint of color.

5259 PCGS 1883-CC MS 64. Brilliant.

5260 PCGS 1883-O MS 65. Smooth, lustrous surfaces with the often seen softness in the centers.

5261 PCGS 1883-O MS 64 Deep Mirror Prooflike. Sharp cameo contrast.

5262 PCGS 1884 MS 64. Brilliant.

5263 PCGS 1884-CC MS 64. Fully struck and brilliant.

5264 PCGS 1884-CC MS 65. Thick frosted mint luster.

5265 ANACS 1884-CC MS 65. Rainbow toning on the obverse, brilliant reverse.

5266 PCGS 1884-O MS 62 Deep Mirror Prooflike. Weakly struck but very clean.

5267 PCGS 1885 MS 65. Brilliant and frosted.

5268 PCGS 1885-CC MS 65 Prooflike. Brilliant with plenty of flash.

5269 PCGS 1885-O MS 66. Fully struck with outstanding luster and semi-prooflike fields.

5270 PCGS 1885-S MS 64. Brilliant with clean surfaces. Scarce in this grade.

5271 PCGS 1887-S MS 64. Deep speckled toning on the obverse, brilliant reverse. An attractive example of this scarce Redfield date.

5272 PCGS 1887-S MS 63 Deep Mirror Prooflike. Astonishing depth of mirrors with a cameoed contrast.

5273 PCGS 1888 MS 64. Lustrous.

5274 PCGS 1888-O MS 64. Light in color with good luster.

5275 PCGS 1888-O MS 65. Very sharply struck with just a touch of pale golden color.

5276 NGC **1889 MS 65 Deep Mirror Prooflike.** In spite of an original mintage of more than 21 million coins there are very few true prooflike dollars of this date. There are a few semi-prooflikes, but deep mirror pieces such as this are legitimately rare. The devices are heavily frosted and

contrast sharply against the fields. This is the only 65 DPL that NGC has certified of this date. PCGS has only graded three pieces with none finer by either major service.

5277 PCGS 1889-O MS 63. Lightly toned with soft centers as usual.

5278 PCGS 1889-O MS 64. Superb mint luster and clean as a whistle but lacking striking definition in the centers.

5279 PCGS 1889-S MS 64. Fully struck and brilliant. Scarcer date.

5280 PCGS **1889-S MS 65.** Light, original golden-brown toning with superb underlying mint luster and smooth, virtually unblemished surfaces. Very scarce in gem condition with only 128 coins having been so graded by PCGS.

5281 PCGS 1890 MS 64. Nicely toned with strong underlying luster.

5282 PCGS 1890 MS 64. Rainbow toning. Well struck.

5283 PCGS 1890-O MS 64. Sharply struck with deep violet and blue toning.

5284 PCGS 1890-O MS 63 Deep Mirror Prooflike. Brilliant with a cameoed effect on each side.

5285 PCGS 1891-CC MS 64. Fully struck and untoned with excellent luster. The obverse appears to be a gem, but there are a few small marks on the reverse that prevent a higher grade.

5286 PCGS 1891-O MS 64. Softly struck in the centers with clean surfaces.

5287 PCGS 1891-O MS 64. Brilliant and highly lustrous with an above average strike.

5288 PCGS 1891-O MS 64. Clean surfaces with thick mint frost. Weak in the centers as usual.

5289 PCGS 1892-CC MS 64. Superb frosty mint luster and minimally abraded for a CC dollar.

5290 PCGS 1892-CC MS 64. Fully struck with the usual excellent luster and light peripheral color.

5291 PCGS 1892-O MS 63. Clean and lustrous but soft in the centers as usual.

5292 PCGS **1894-O MS 64.** Attractive luster with minimal abrasions, this 1894-O has some of the characteristic reddish-yellow toning often seen on coins of this date with bits of deeper blue on the reverse edge. Not completely brought up in the centers as usual, this may well be the only detracting feature on this rare dollar. One of only 46 coins to have been so graded by PCGS.

5293 NGC **1894-S MS 65.** An exceptionally handsome 1894-S, this coin exhibits strong luster, characteristic of a San Francisco product, and the fields have a bright semi-prooflike sheen. The obverse is overlaid by streaks of reddish-golden patina while the reverse is barely touched by color. The 1894-S is a popular coin because it is the most affordable of the three issues struck in that year. Still, it is a very scarce item in gem condition with only five pieces having been so graded by PCGS.

5294 PCGS 1898 MS 65. Very sharply struck with clean surfaces that are virtually unblemished. Light golden-olive toning in the fields. A scarce and overlooked issue.

5295 PCGS 1900 MS 65. Clean and highly lustrous.

5296 PCGS 1900-O MS 65. Fully struck with bright satiny luster.

5297 PCGS 1902 MS 65. Clean surfaces with deep golden toning on the obverse and deep olive and violet color on the reverse.

5298 PCGS 1902-S MS 64. Attractively toned and well struck. An affordable high grade example of this scarce Morgan that becomes very expensive in gem condition.

5299 PCGS **1902-S MS 65.** A very scarce coin in gem condition with only 69 pieces having been graded in MS-65 by PCGS. This piece has smooth, satiny luster and pristine surfaces with a light layer of golden toning.

5300 PCGS 1903 MS 65. Fully struck with bright satiny luster and clean surfaces.

5301 PCGS 1903 MS 66. Fully struck with incredible splashes of deep rainbow iridescence on each side. A beautiful coin and scarce as such with only 103 pieces having been so graded.

5302 PCGS 1903-O MS 65. Satiny and well struck.

5303 PCGS 1904-O MS 65. Brilliant with superb mint frost and clean features, but a bit weak in the centers.

5304 PCGS 1921 MS 65. Fully struck with thick mint luster.

5305 PCGS 1921-D MS 64. Lustrous and lightly toned on the obverse.

PROOF MORGAN DOLLARS

5306 NGC **1899 PR 65.** An enchanting proof Morgan that has toned a lovely golden-violet with a thin band of blue around the edges. The fields are deeply reflective and show only the tiniest of imperfections.

PEACE DOLLARS

5307 NGC 1921 MS 64. An originally toned coin with rather deep charcoal toning outlining the devices and a lighter golden in the fields. As usual, lacking full highpoint detail in the centers.

5308 NGC **1921 MS 65.** The obverse is well toned in splotchy shades of golden-violet while the reverse displays similar toning at the base. Extremely sharp in strike, with excellent underlying luster.

5309 PCGS 1922 MS 65; 1923 MS 65; and a 1925 MS 65. All three are fully struck, lustrous gems, and are either brilliant or have very light color. (Total: 3 coins)

5310 PCGS 1922 MS 65. Intensely lustrous with champagne golden toning and lilac accents.

5311 PCGS 1922-D MS 64. A bold, satiny white example which exhibits the usual die cracks on both obverse and reverse.

5312 PCGS 1923 MS 65. An excellent gem type coin with light, attractive toning.

5313 PCGS 1923 MS 65. Shimmering mint luster.

5314 PCGS 1923-S MS 64. Brilliant but softly struck on the reverse as usual.

5315 PCGS 1925 MS 65. Light, even toning with a complete strike.

5316 PCGS 1925 MS 65. Fully struck with a light touch of golden color.

5317 PCGS 1925-S MS 63. Untoned.

5318 PCGS 1925-S MS 64. Lightly toned and lustrous but somewhat softly struck as usual.

5322 PCGS 1927 MS 63. Toned.

5323 NGC **1927-S MS 65.** One of the truly rare Peace dollar dates in gem condition. The frosty surfaces are clean, reasonably well struck and show traces of yellow-gold toning on the obverse and, more visibly, on the right half of the reverse.

5338 PCGS 1903 Louisiana Purchase Jefferson MS 64. Clean and satiny, with a bit more flash necessary for a 65 grade.

5339 PCGS 1903 Louisiana Purchase Jefferson MS 64. An essentially choice, full luster coin identifiable by a light copper stain at the center of the reverse

5373 PCGS 1915-S Panama-Pacific Gold Dollar MS 64. A frosty example, boasting originality and strong eye appeal.

5374 NGC 1915-S Panama-Pacific Gold Dollar MS 64. The obverse exhibits bright, satiny luster and, like most Pan-Pac Ones, minor hairlines on the laborer's cap.

5375 NGC 1915-S Panama-Pacific Gold Dollar MS 64. Bright and satiny.

5376 PCGS **1915-S Panama-Pacific Gold Dollar MS 65.** The first in an impressive run of four 65 specimens. Very frosty, with only a stray mark or two on the obverse from superb quality.

5377 PCGS **1915-S Panama-Pacific Gold Dollar MS 65.** Frosty obverse, more of a satiny-finished reverse.

5378 NGC **1915-S Panama-Pacific Gold Dollar MS 65.** Rich golden-orange coloration.

5387 NGC **1915-S Panama-Pacific Quarter Eagle MS 64.** Similar in appearance to the previous example, but a trifle subdued on the obverse.

5388 NGC **1915-S Panama-Pacific Quarter Eagle MS 65.** A satiny gem which has obviously been carefully preserved over the years. The surfaces are very sharply struck and display a lovely green-gold tint. While most of the gold commem issues are fairly obtainable in 65 condition, such is not the case with the higher denomination Pan-Pac.

5389 PCGS 1916 McKinley MS 60. Somewhat prooflike, with a patch of unfinished roughness and two trivial scrapes on the obverse.

5390 PCGS 1916 McKinley MS 61. Shimmering luster and an absence of surface marks give this appealing example the appearance of a higher coin.

5391 PCGS 1916 McKinley MS 62. Highly lustrous, with only a tiny hairline scratch on McKinley's cheek precluding an upgrade.

5392 PCGS 1916 McKinley MS 62. Frostier than the typcial McKinley, with sparkling mint brilliance.

5393 PCGS 1916 McKinley MS 63. Green-gold surfaces with strong appeal for the grade.

5394 PCGS 1916 McKinley MS 63. Deep satiny luster. Again, quite appealing for the grade.

5396 PCGS 1916 McKinley MS 64. Rich golden-orange surfaces.

5399 PCGS 1916 McKinley MS 64. Frosty obverse devices.

5400 PCGS 1916 McKinley MS 64. The majority of both the obverse and reverse are bathed in attractive olive-gold patina.

5401 PCGS 1916 McKinley MS 64. The final example in this date and grade, and a flashy one at that.

5402 NGC 1916 McKinley MS 64. Brightly lustrous and, like many McKinleys, displaying a hint of prooflikeness in the reverse field.

5403 PCGS **1916 McKinley MS 65.** Dazzling mint luster and near-flawless surfaces, with exceptionally pleasing frostiness on the obverse devices.

5404 PCGS **1916 McKinley MS 66.** An impeccable green-gold specimen which, even under magnification, fails to reveal any mentionable flaws. The population of McKinleys falls off drastically as the grade exceeds MS 65, becoming legitimately scarce at this lofty level.

5405 PCGS 1917 McKinley MS 61. Bright and lustrous.

5410 PCGS 1917 McKinley MS 64. Satiny, with delicate pinkish-gold highlights.

5413 PCGS **1917 McKinley MS 65.** Speckled toning across the obverse. A lovely, original coin which is scarce in 65 condition and nearly impossible any nicer.

5422 NGC **1922 Grant MS 65.** A satin-like gem, nearly abrasion-free and exhibiting a delicate yellow-gold appearance.

5423 NGC **1922 Grant MS 65.** Bright, satiny surfaces, intricately detailed and void of noticeable blemishes.

5424 PCGS 1922 Grant with Star MS 60. A few light obverse marks are visible, but overall a very nice coin for the grade.

5425 PCGS 1922 Grant with Star MS 61. Bright and lustrous, with no serious marks. This low-mintage gold commem seemingly enjoys as much demand in lower mint state grades as it does in high grades.

5426 PCGS 1922 Grant with Star MS 63. A razor sharp strike only moderately abraded and displaying a bright green-gold finish.

5427 PCGS 1922 Grant with Star MS 63. Lustrous and sharp.

5428 PCGS **1922 Grant with Star MS 64.** Satiny and nearly of gem quality, exhibiting pleasing color and a strong strike.

5429 PCGS **1922 Grant with Star MS 64.** A razor sharp striking which, were it not for a barely noticeable, shallow mark in Grant's hair, would easily qualify as a 65.

5430 PCGS **1922 Grant with Star MS 64.** Frosty green-gold surfaces.

5431 PCGS **1922 Grant with Star MS 64.** Fully lustrous and struck, with only a couple microscopic obverse marks limiting the grade.

5432 PCGS **1922 Grant with Star MS 64.** Choice, richly colored surfaces.

5433 NGC **1922 Grant with Star MS 64.** A bright yellow-gold example, just a tiny cut on Grant's temple from gem quality.

5434 NGC **1922 Grant with Star MS 64.** Well detailed and satiny, with a decisive green-gold tint.

5435 PCGS **1922 Grant with Star MS 65.** An original, sharply struck coin, yellow-gold in color and displaying an identifiable copper stain before U.S.G.'s forehead.

5436 PCGS **1922 Grant with Star MS 65.** A shimmering yellow-gold example, wholly original and free of noticeable blemishes.

5437 PCGS **1922 Grant with Star MS 65.** Thick mint luster with deep reddish color and just a touch of olive.

5438 NGC **1922 Grant with Star MS 65.** Clean surfaces with just a touch of light rose tinted color on the reverse.

with a couple of darker russetcolored copper spots on the obverse.

5456 PCGS **1926 Sesquicentennial MS 65.** Despite its relative availability in all grades lower than MS-65, gem Sesquis are very elusive. In fact, they are second in scarcity among gold commemorative dollars and quarter eagles, second only to the 1905 Lewis and Clark. Gem Sesquis are almost twice as rare as the 1904 Lewis and Clark in that grade. This piece has outstanding, thick mint luster and virtually perfect surfaces. The coin has taken on a deep reddish caste and shows a number of deep red copper stains from improper mixture of the gold/copper alloy in the mint. One of only 58 pieces to have been so graded by PCGS, only one coin is finer.

ONE-DOLLAR GOLD PIECES

5457 PCGS 1851 MS 61, thick reddish colored luster; 1853 MS 61, fully struck; and an 1854 Type One MS 61, one long luster break in the upper left obverse field. (Total: 3 coins)

5458 NGC 1851 MS 61, bright yellow gold color; 1852 MS 60, full strike; and an 1854 Type One MS 60, deep reddish colored edges. (Total: 3 coins)

5459 PCGS **1851 MS 64.** Sharply struck with thick mint frost that has taken on a light reddish color. A very attractive type coin.

5460 PCGS 1852 MS 62. Sharply struck with a few minor surface marks.

5461 PCGS **1852 MS 64.** Fully struck with clean surfaces and a pronounced reddish color.

5462 PCGS 1853 MS 62. Quite sharp, with a greenish-gold tint at the borders.

5463 PCGS 1853 MS 63. Lightly abraded with super frosty mint luster.

5464 PCGS **1853 MS 66.** Immaculate surfaces that show no abrasions, the only ripple in the fabric of the coin being a tiny lump of extra metal on the lower jaw of Liberty as made in the mint. Superb luster with light rose tinted color. Obviously very scarce in this condition, there have been only eight pieces so graded of this date out of a total of 18 in the entire series of Type One dollars.

5465 PCGS **1854 Type Two AU 55.** Sharply struck with strong hair detail and a well defined knot at the bottom of the wreath. Almost all the luster remains on this lightly circulated coin. The fields show the usual die clash marks but there are virtually no handling marks on either side.

5466 PCGS 1861 MS 62. Excellent luster for the grade with a few light marks.

5467 NGC 1862 MS 60. Full strike.

5468 PCGS 1862 MS 62. Deep reddish-orange patina.

5469 PCGS 1862 MS 64. Sharply struck with bright lustrous surfaces.

5470 PCGS 1873 Open 3 MS 61.

5471 PCGS 1873 Open 3 MS 61. Good luster for the grade.

5472 NGC 1874 MS 60. Full LIBERTY on the headband.

5473 PCGS 1874 MS 61. Semi-prooflike reverse.

5474 PCGS 1874 MS 61. Prooflike.

5475 PCGS **1874 MS 65.** A superb gem type coin with bright prooflike fields and evidence of heavy die polish on each side. Virtually flawless surfaces.

5476 PCGS 1881 MS 64. Prooflike as usually encountered on this date with clean, problem-free surfaces. A scarcer date than the mintage of 7,620 coins would indicate and almost as difficult in high grades as the 1880, an issue that had 6,000 fewer pieces minted.

5477 PCGS 1885 MS 64. Sharply struck with a mixture of prooflikeness and cartwheel in the fields.

5478 PCGS 1885 MS 64. Firmly struck with bright yellow-gold color and excellent mint luster.

5479 PCGS 1886 MS 61. Semi-prooflike.

5480 PCGS 1888 MS 64. A fully struck specimen, greenish-gold in color and displaying shimmering mint luster.

5481 PCGS 1889 MS 62. A frosty example, gem in appearance but downgraded by a few wispy obverse hairlines.

5482 PCGS 1889 MS 64. An attractive example of this final year of issue that shows sparkling reddish color in the fields with an occasional accent of blue. Fully struck.

5483 PCGS **1889 MS 66.** Near flawless surfaces which boast original green-gold color and lovely mint bloom. A true gem example of this final year gold dollar issue.

5484 NGC **1889 PR 61.** A highly reflective proof striking that has only minor disturbances in the fields and whose fields are accented by a light reddish-coppery color.

EARLY QUARTER EAGLES

5485 NGC **1837 MS 62.** A lovely coin with deep prooflike fields--this is a coin with a story to tell. While prooflike fields are not uncommon on Classic quarter and half eagles, seldom are they seen with such a pronounced depth and no trace of cartwheel. This coin was struck from the B-2 dies, the same dies from which the three known proofs were struck. We would conjecture that this piece was struck shortly after the proofs were minted, before the dies' proof polish diminished in the fields. It might even be possible to call this coin a proof were it not for the softness of detail on the hair curls and the eagle. The known proofs do not show such a lack of striking detail and this coin was apparently only struck once and not with full pressure even then. An interesting and highly attractive Classic quarter eagle that should bring a good price.

LIBERTY QUARTER EAGLES

5486 NGC 1871-S AU 55. While not the impossible rarity in high grade as are other early S-mint quarter eagles, the 1871-S is nevertheless quite a scarce coin with few pieces available in AU and mint state. This piece is sharply struck except on the eagle's left leg (as always) and the fields are semi-prooflike.

5487 PCGS 1873 AU 50. Closed 3. Bright, somewhat prooflike surfaces.

5488 PCGS 1878 MS 61. Deep reddish color.

5489 PCGS 1893 MS 60. Fully struck with rich color.

5490 PCGS Two 1893 MS 61, both are fully struck with good color. (Total: 2 coins)

5491 NGC 1893 MS 61. Fully struck but baggy on the obverse.

5492 PCGS 1896 MS 60.

5493 NGC 1896 MS 62. Sharply struck with even reddish color.

5512 PCGS 1911 MS 62; NGC 1912 MS 62, and a PCGS 1914-D MS 62. All are well struck coins. (Total: 3 coins)

5513 PCGS **1911-D MS 62.** This should prove to be a very popular lot in this auction as the 1911-D is the key date in the Indian quarter eagle series and it is seldom seen in true uncirculated condition. This piece is fully struck with clean surfaces and attractive light reddish color. One of only 50 coins to have been so graded by PCGS.

5514 PCGS 1925-D MS 64. Superb pinkish-rose tinted frosty luster.

5515 PCGS 1925-D MS 64. A very pleasing, upper-end 64 coin with bright satiny surfaces that are minimally abraded and strongly resemble a full gem coin.

5516 PCGS **1925-D MS 65.** A gorgeous, wholly original coin, struck to the fullest and virtually free of surface imperfections. This piece's strongest feature, however, is the layer of orange-gold toning which, save for a light streak in the Indian's headdress, covers both obverse and reverse.

5517 PCGS 1926 MS 62. Exceptionally deep coppery-red color over both sides.

5518 PCGS 1926 MS 62. Quite frosty, with rich orange-gold coloration.

5519 NGC 1926 MS 63. Light in color, with scattered specks of coppery toning most evident on the obverse.

5520 PCGS 1926 MS 64. Thick, frosty mint luster with only a few spots of coppery color on either side.

5521 PCGS 1926 MS 64. In terms of color alone this is one of the most attractive gold coins in this sale. The surfaces have taken on a subtle pinkish tone with occasional deeper spots of red and a very faint trace of green.

5522 PCGS 1927 MS 64. Fully struck with pink centers that are framed by a light olive at the edges. An attractive and original coin.

5523 PCGS 1928 MS 63. Lightly abraded with good luster.

THREE-DOLLAR GOLD PIECES

5524 PCGS **1871 AU 55.** A very scarce three-dollar issue with a paltry mintage of only 1,300 pieces. This coin is almost fully prooflike with only the slightest handling friction evident in the fields. Well struck overall with a few tiny marks seen on the cheek of Liberty.

LIBERTY HALF EAGLES

5525 ANACS 1845-D EF 40. The surfaces are well struck overall and display evidence of a light cleaning on the obverse. Popular Dahlonega issue.

5526 PCGS 1861 AU 55.

5527 PCGS **1861 MS 63.** A select example of this No Motto five. The surfaces are satiny in texture, quite sharp throughout and display attractive golden-orange toning about the stars and lettering. One minor blemish is noticed just to the right of the date.

5528 NGC 1880 MS 62; 1882 MS 62; 1895 MS 62; and an 1899 MS 62. All are lustrous, well struck coins that have just a few too many marks to grade higher. (Total: 4 coins)

5529 PCGS 1880-S MS 60; 1882-S MS 60; and a NGC 1905 MS 61. Both of the S-mint coins are either prooflike or semi-prooflike. (Total: 3 coins)

5547 PCGS 1908 MS 63. Medium orange gold color.

INDIAN HALF EAGLES

5548 PCGS 1909 MS 63. A glassy, razor sharp specimen, with rich color and just a few barely perceptable surface marks on the reverse.

5549 PCGS 1909-D MS 63. Fully struck.

LIBERTY EAGLES

5559 PCGS **1871 VF 20.** Very rare in any condition with an original mintage of only 1,820 pieces, probably unknown in mint state. This is a clean, problem-free coin with light reddish-orange color that shows no scratches, digs, or other surface detractions.

5560 PCGS 1874-CC VF 20. A nice coin for the grade with enough wear on the high points that one doesn't notice the softness of strike always seen on this issue. Scarce.

5561 PCGS 1891-CC MS 60. Sharply struck with the usual deep coppery red color.

5562 PCGS 1892; 1893; and an 1894. All grade MS 60 with a few noticeable bagmarks. (Total: 3 coins)

5569 PCGS 1905-S AU 58. A scarce and underrated date that is seldom seen in AU. According to the May Population Report there have not been any mint state coins graded of this issue. Bright surfaces with almost complete luster.

5570 PCGS 1906-D MS 62. Fully struck with bright yellow-gold color.

5571 PCGS 1907 MS 62. Satiny and lightly marked.

INDIAN EAGLES

5572 PCGS 1907 No Motto MS 63. Vibrant luster and color, but displaying the usual softness in the curls over Liberty's ear. The reverse, as is often the case on this date, is much stronger and fully choice.
